ABSTRACT

Indian Banking Sector has undergone various changes in last decade. Because of Globalization Domestic banks have learnt to stand in such a cut throat competition and RBI possessed different norms and rules. Under this paper the effort is made to discuss what were the major changes that have been taken place and how Public, Private and foreign sector banks are managing their funds with the help of inter comparison between three, various ratios being the based have been used.

KEYWORDS: *Public, Private and Foreign Sector Banks, Ratio Analysis and funds Management.*
